Ombudsman loses case vs DBP execs

By John R. Rosales

THE OFFICE OF THE OMBUDSMAN AND THE Presidential Commission on Good Government have lost a graft case filed by the Philippine Bureau of Internal Revenue against a senior DBP executive in connection with a nearly 400-million loan that the DBP intended to borrow from Japan International Finance Corp.

The Supreme Court ruled in favor of the DBP executives, who were charged with conspiracy to defraud the government of the loan. The court also ruled in favor of the DBP executives, who were charged with conspiracy to defraud the government of the loan.

Boxas gives cheaper meds bill new life

By Rose C. Penaranda

MANILA (Philippine Daily Inquirer) — A new bill that aims to make generic drugs more affordable to patients is expected to pass the House of Representatives.

The bill, known as the Generic Drug Act, was introduced by House Representative Raul S. Mangat. It seeks to ensure that generic drugs are made available to patients at a lower cost than branded drugs. The bill also aims to protect the intellectual property rights of pharmaceutical companies.

The bill is expected to be passed by the House of Representatives in the near future. It is a significant step towards making generic drugs more accessible to patients, especially those who are unable to afford branded drugs.

The bill also aims to protect the intellectual property rights of pharmaceutical companies. It seeks to ensure that companies are able to recoup their investment in research and development.

The bill is expected to be passed by the House of Representatives in the near future. It is a significant step towards making generic drugs more accessible to patients, especially those who are unable to afford branded drugs.

Correction

In the July 14, 2009 issue of the Philippine Daily Inquirer, the article on the Generic Drug Act was incorrectly reported. The article should have stated that the bill is expected to be passed by the House of Representatives in the near future.

The Daily Gospel

Matthew 10:1-42

Jesus called his twelve apostles to him and gave them authority to drive out demons and to heal every disease and ailment.

These are the names of the twelve apostles: Simon, who is called Peter, and Andrew, his brother; James the son of Zebedee, and John, his brother; Philip, and Bartholomew; Thomas, and Matthew the tax collector; James the son of Alphaeus, and Lebbei; Judas the son of Alphaeus, and Simon the Zealot; and Jesus chose Judas the son of Alphaeus to be his betrayer.

And he sent them out two by two, and gave them authority over all the demons, and to heal every disease and ailment.

And he said to them, "Do not go into the way of the Gentiles, and do not enter into a Samaritan city. But go to the lost sheep of Israel."

And as they went out, Jesus said to them, "Behold, I am sending you out as sheep in the midst of wolves, so you must be wise as serpents and innocent as doves."

And he gave them these signs, saying, "Whoever binds on earth shall be bound in heaven, and whoever looses on earth shall be loosed in heaven."

And he said to them, "Whoever binds on earth shall be bound in heaven, and whoever looses on earth shall be loosed in heaven."

Lim reopens Rizal Avenue, forest park

By Michael D. Lopez

MANILA (PNA) — Mayor Limnoro T. Reyes on Wednesday re-opened Rizal Avenue and Rizal Forest Park in Marikina City after a fire destroyed the area last year.

Reyes said the city government will continue to work on the area's development.

The e-jeepney, a modified jeepney, is a common mode of public transport in the Philippines. It is a small, open-sided vehicle that can carry up to 10 passengers. The e-jeepney is a more modern and eco-friendly version of the traditional jeepney, featuring a more aerodynamic shape and a more comfortable interior. It is expected to be a popular mode of transport in the future.

Figure 1 is a line graph illustrating the percentage of the total sample for various age groups across different years. The y-axis represents the percentage of the total sample, ranging from 0% to 100%. The x-axis represents the years, with labels for 1990, 1995, 2000, 2005, 2010, 2015, and 2020. The age groups are represented by different colored lines: 0-14 (blue), 15-24 (orange), 25-34 (green), 35-44 (red), 45-54 (purple), 55-64 (brown), and 65+ (pink). The graph shows a general trend of decreasing percentages for younger age groups and increasing percentages for older age groups over time.

Figure 1 consists of a 10x10 grid of small plots. Each plot has a horizontal axis labeled 'x' and a vertical axis labeled 'y'. The plots show various patterns of dots representing individuals. Some plots show a single dot, while others show multiple dots. The patterns vary across the grid, illustrating the spatial distribution of the simulated populations.

THE 2007 CINEMALAYA festival, the main line-up of the Philippine Independent Film Festival, is a higher quality than last year's, according to festival director, Mariangela (P3).

He said that the festival is a platform for the local film industry to showcase their work and to compete with the international film market.

He also mentioned that the festival is a great opportunity for the local film industry to network and to find potential investors and distributors.

The changing face of stardom

BY JEFF LABRECQUE
 The movie industry has always been a place of constant change. From the silent era to the sound era, from black and white to color, from the studio system to the independent film movement, the industry has always been in flux. And now, with the rise of the Internet and the decline of the studio system, the industry is once again in a state of flux. The question is: What will the future of the movie industry be?

Jeff Labrecque

One of the most significant changes in the movie industry in recent years has been the rise of the independent film movement. This movement has been led by filmmakers who are not affiliated with the major studios. They are often working with smaller budgets and are often focusing on more socially conscious or experimental themes. This movement has helped to diversify the types of movies that are being made and has also helped to bring more attention to the work of independent filmmakers.

Another significant change in the movie industry has been the rise of the Internet. The Internet has provided a new platform for filmmakers to distribute their work. This has allowed filmmakers to reach a wider audience than ever before. It has also allowed filmmakers to bypass the traditional distribution channels and to sell their movies directly to the public. This has helped to level the playing field and has allowed more filmmakers to get their work seen.

Finally, there has been a significant change in the way that movies are marketed. In the past, movies were often marketed through a series of posters and trailers. Now, however, movies are often marketed through a combination of these traditional methods and through the use of the Internet and social media.

These changes have helped to make the movie industry more diverse and more accessible than ever before. They have also helped to bring more attention to the work of independent filmmakers and to the work of filmmakers who are working on more socially conscious or experimental themes. The future of the movie industry is bright, and it is exciting to see what new changes will come.
